

CAD Technician

Location: Edinburgh (Stobo House, Midlothian Innovation Centre, Roslin)

The Company

Green Cat Renewables is a dynamic, innovative company that provides the complete range of technical services required to deliver renewable energy projects. The team of 50 Engineers and Environmental Consultants deliver projects on behalf of Clients from three offices in Edinburgh, Livingston and Biggar.

Through the Engineering Department, the company provides Engineering Consultancy and Project Management services to clients who are developing renewable energy projects as well as projects in other non-renewable areas. This includes: civil and electrical design, procurement, contract management, site supervision, civil, mechanical and electrical inspections, and services relating to the construction of a project.

Green Cat Renewables now require a CAD Technician to join the Engineering team in Edinburgh to work closely with the team providing technical drawings of detailed designs to be used in the construction of wind farms, hydropower schemes and solar farms, as well as other civil and/or structural works, both in the UK and overseas.

The Role

- Assist in the design and production of all relevant drawings required to take a project through the planning, tender and construction phases, on software including AutoCAD and Autodesk Civil 3D.
- Take responsibility for building good and close working relationships within the team, and company and where necessary clients and contractors.
- Assist in training CAD technician colleagues in the use of Civil 3D.
- Develop and maintain a technical knowledge of all the processes and elements required to deliver the drawings and designs needed to develop a project.
- Continuing Professional Development with regards to the CAD software, BIM (Building Information Modelling) and relevant standards.

The Candidate

- At least 3 years' experience of undertaking relevant engineering drawings including small industrial buildings, groundworks and linear infrastructure such as tracks and pipelines.
- Experience in detailing structures and reinforcement
- A qualification relevant to CAD / Engineering (not compulsory if significant experience can be demonstrated)
- BIM knowledge and willingness to learn and 'keep up to date'
- Excellent attention to detail
- Good organisational skills
- Willingness to travel within UK when required (infrequent)
- Valid Driving License for use within UK

To apply please send a full CV and covering letter to jobs@greencatrenewables.co.uk by the 20th January 2018. Quote: Cad Tech 2018 Edinburgh
